

ENVIRONMENTAL POLICY

We at ACG Lukaps d.o.o, as a manufacturer of Hard Gelatine Capsule Shells for the pharmaceutical and food supplement industries, are committed to:

- Manage the environment responsibly and carefully by adopting and implementing the system according to the ISO 14001:2004
- All our activities shall be in compliance with valid national legislative regulations concerning the protection of the environment
- Constantly improve our own environmental management system with the intention to improve pollution prevention
- Work systematically on the reduction and reuse of waste material, wherever possible
- Control and save energy as well as rare and non-renewable resources
- Set goals to protect environment annually and evaluate the accomplishments
- Follow the responsibility and social cohesion policy in our relationship with the local community
- Insist that our suppliers and other business partners implement the environmental protection policies in their activities and our mutual business cooperation
- Review the Environmental policy, objectives and targets in every management review meeting in order to establish suitability of the same.

This document is made available to the employees on the public board in ACG Lukaps d.o.o. and on the web-site.

Ludbreg, 15.07.2016.
